CHECK-LIST AND BIBLIOGRAPHY ON THE  
OCCURRENCE OF INSECTS IN BIRDS' NESTS

SUPPLEMENT II<sup>1</sup>

Ellis A. Hicks

Department of Zoology and Entomology  
Iowa State University of  
Science and Technology

ABSTRACT. Information additional to that given in Check-List and Bibliography on the Occurrence of Insects in Birds' Nests and in Supplement I is presented in Supplement II. Organization of Supplement II is identical to that of the initial check-list, there being entomological, ornithological, and bibliographical sections.

The following insect orders are included: Coleoptera, Collembola, Corrodentia, Diptera, Hemiptera, Hymenoptera, Lepidoptera, Mallophaga, Orthoptera, Siphonaptera, Thysanoptera, and Thysanura. The following avian orders are included: Anseriformes, Apodiiformes, Caprimulgiiformes, Charadriiformes, Ciconiiformes, Columbiformes, Coraciiformes, Cuculiformes, Falconiformes, Galliformes, Gruiformes, Passeriformes, Pelecaniformes, Piciformes, Podicipediformes, Procellariiformes, Psittaciformes, Sphenisciformes, Strigiformes, and Tinamiformes. The bibliographical section contains more than 400 entries.

INTRODUCTION

This, the second supplement, includes not only material overlooked in compilation of the main check-list and the first supplement but also many references published after the first supplement appeared. Probably of greater importance is the proportionately large number of references which furnish information on the eastern European and the Asiatic faunas. This collection of references is, however, merely a beginning, and represents only a small part of the pertinent literature of these geographic areas. Many of the publications are most difficult to acquire for study, and had it not been for ready access to the personal library of Robert E. Lewis, Iowa State University, much of the material on fleas could not have been included.

<sup>1</sup>This work was supported by a grant from the Iowa State University Journal of Science Revolving Fund. Available as Vol. 46, No. 2 of the ISU Journal of Science, at \$2 per copy from the Iowa State University Press, Ames, Iowa. Remittance must accompany the order.
